

ErgoTight Wired Keyboard and Numeric Pad

Compact with Full Features

The ErgoTight Wireless Keyboard and Numeric Pad Combo gives users the option and benefits of a compact keyboard without losing out on numeric pad functionality.

Separate and adjustable

The separate keyboard and numeric pad enables users to configure the placement of the numeric pad to their preference.

The numeric pad can be placed on either side of the keyboard, flush against the keyboard or separated.

Available separately

The ErgoTight is available as a combo (keyboard and numeric pad), stand alone keyboard and stand alone numeric pad.

Product Codes:

Combo: 4048BL-US-C

Keyboard: 4048BL-US

Numeric Pad: 4028BL

Features

- When used as a combo, the numeric pad connects to the keyboard, the keyboard then connects to the computer via USB
- Used individually, the keyboard or numeric pad connects to the computer via USB
- Both keyboard and numeric pad have the same low profile
- A tether is included with the combo to connect the numeric pad to either side of the keyboard if desired
