Smart Cat Pro

Comfort plus performance in computer control

The Smart Cat Pro® combines all the power of a top-of-the-line mouse with the unrivaled comfort and durability of a touchpad with intelligent software, one-touch scroll and zoom, and distinctive sounds for each operation. Additionally, four unique, programmable hotlinks independently execute programs/commands, open files, control browser functions, assign (toggle) mouse actions and control cursor modes.

GlidePoint® Technology

Smart Cat's capacitive touch technology provides complete navigation control of any graphical interface, packed in a space-saving, low-friction, durable mouse alternative. GlidePoint's sophisticated sensor system quickly responds to precise finger movements.

Provides precise cursor control:

- Execute, browse at the touch of a finger
- GlideExtend® virtually eliminates the edge of the pad when dragging
- Multi-finger Advanced Gestures available: scroll, zoom, rotate and more
- Zoom reduces or enlarges Office documents
- Scroll moves horizontally & vertically
- Right tap mimics a mouse right-click
- Adjustable sounds, speed, sensitivity and orientation

Product Highlights

- Four (4) programmable hotlinks
- Extra-large touch surface
- Easy-to-find textured "right" click area
